## TECHNICAL SPECIFICATIONS

- Water repellent acrylic fabric of **300gr/m<sup>2</sup>** ensuring a **97% UV filtration – UPF 80**, with anti-mildew, anti-fouling treatment and waterproofing.
- Its fabric is guaranteed from discoloration for **5 years**. Seams and straps are guaranteed **2 years**.
- The sail seams are not waterproof.

*\*White, Marfil, Avena and silver colours are UPF 40 and peach colour is UPF 60 (UPF = Ultraviolet Protection Factor).*

## HIGH QUALITY DESIGN

- Finishing details include **hem folded 3 times and reinforced threads** for this Acryl 300 shade sail
- Technology from the making of boat sails.

## USER COMFORT

- Shipped with a marine stainless steel snap hook at each angle **for a fast installation and disassembly**. Easy maintenance, wash with soap and clear water.
- It filters sunrays while letting light pass. By suppressing a blinding sensation, it guarantees optimal comfort. The Acryl 300 shade sail stops direct sunlight on walls and glass surfaces and avoids overheating. It acts as a natural conditioner
- Wind resistance: 60km/h
- During installation, **create a 25% incline between the different fixture points** to allow the evacuation of rainwater.
