TECHNICAL SPECIFICATIONS

- High density polyethylene fabric of 340gr/m2 ensuring a 97% UV filtration – UPF 80, with anti-mildew and anti-fouling treatment.
- Its fabric is guaranteed from discoloration for 5 years. Seams and straps are guaranteed for 2 years.

HIGH QUALITY DESIGN

- **Reinforcement strap inserted** in the lining of the shade sail forming a hanging strap in the corners with stainless steel hoops: the tractions are distributed in the entire surface and the shade sail benefits from a better resistance.
- **Reinforced threads** for this Australe 340 shade sail.
- Conceived without eyelets **to avoid tear**.
- Technology from the making of boat sails.

USER COMFORT

- Shipped with a marine stainless steel snap hook at each angle **for a fast installation and disassembly**.
- It filters sunrays while allowing sunlight to pass through.
- An **excellent wind resistance (up to 80km/h)** with "aired" fabric.
- Easy maintenance, wash with soap and clear water.
